
Stealth Tricks to Unleash a Woman

First and foremost... women want ATTENTION!

When women get your UNDIVIDED ATTENTION they feel special, *desired* and *connected*!

When a women feels desired and connected to a man, she starts to feel safe emotionally as well as physically.

When women feel emotionally safe their sexuality will invite you into places you've never been!

Women just work different than men. The limbic portion of women's brain, or their vigilance center is always on HIGH alert. Women are sensitive, connected and vulnerable so it keeps them safe. When a man demonstrates utmost INTEGRITY, honors their WORD and gives them consistent, undivided ATTENTION, a woman's vigilance will start to lower. When a woman feels taken care of emotionally and physically the possibilities are endless!

Hold her heart like a little girl, nourish her mind like a woman and ride her like a race car!

The stealth way to do this is with questions!

It doesn't take a lot of time and your ROI is high.

Women WANT to unleash!

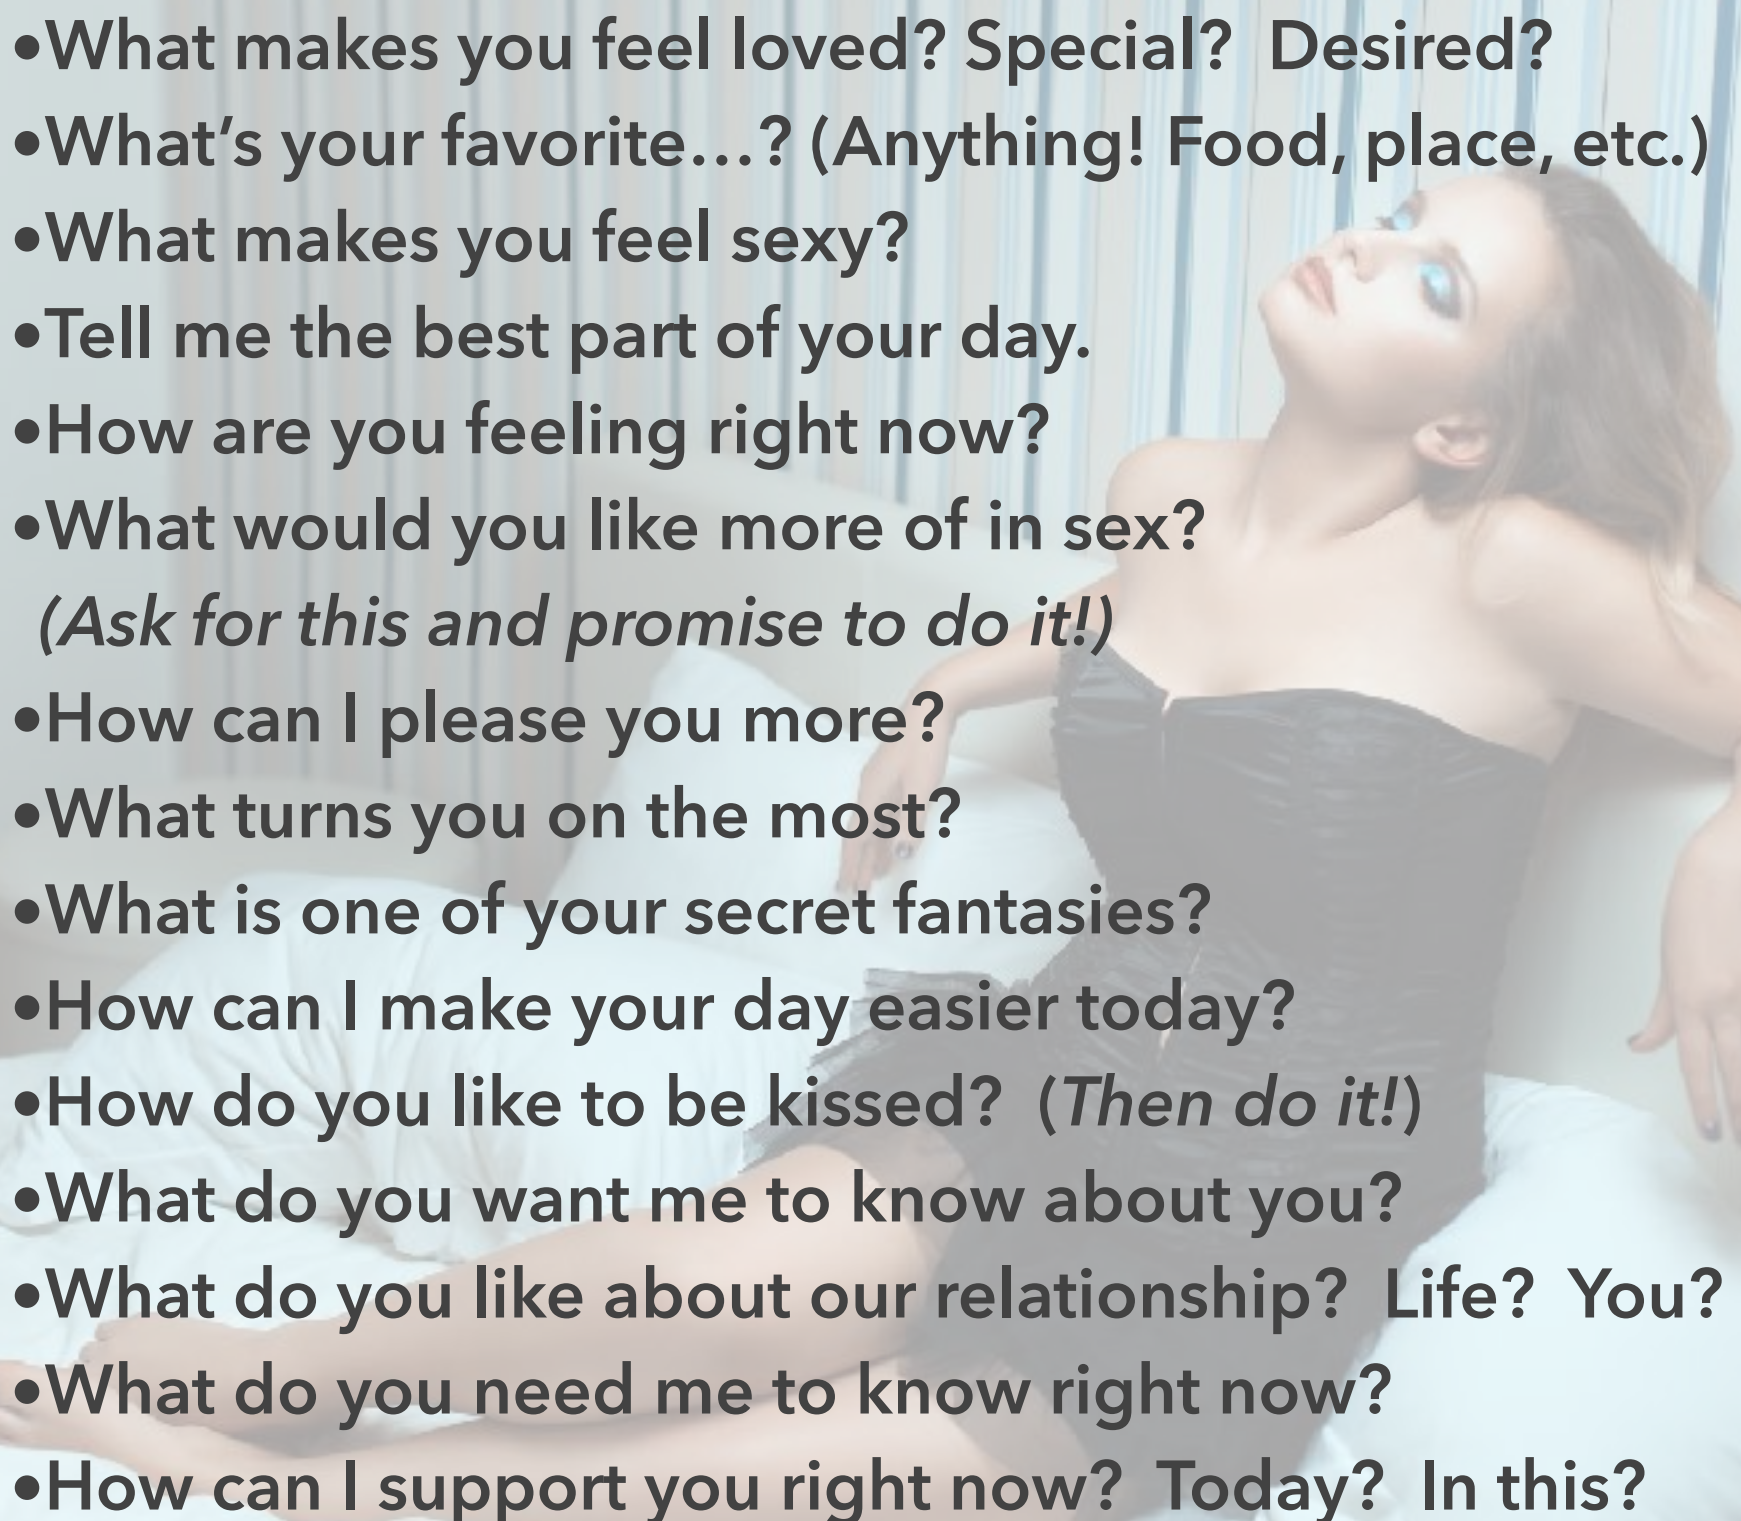

They WANT you to give them toe-curling ecstasy!

They just need to feel connected, desired and emotionally safe.

Asking questions is an easy and effective way to get all of these elements naturally. Women love to talk, explore, share, analyze and create. They also LOVE to be heard, which is exactly why they talk to their mom, sister and friends so much.

YES, listening to a woman can be an endless job for a man, which is why this stealth technique is so effective! The woman feels heard and the man only needs to be more inquisitive and ask unique questions. If men spent as much time nurturing the relationship with their partner as they would a new or continuing business partner, there would be a lot more toe-curling ecstasy for both!
